

## ***Declaration of Compliance*** ***Filter Cartridge***

**For materials made from plastic intended to come into contact with drinking water.**

Hereby we confirm that our product`s

**BLANCO Drink Filter Soft S (526259 / 812612)**  
**Blanco Drink Filter Soft M (527889 / 125638099)**  
**BLANCO Drink Filter Soft L (525273 / 812613)**  
**BLANCO Drink Filter Soft Magnesium M (526260 / 812613)**  
**BLANCO filterhead (525274 / 812611 & 239945 / 812609)**

comply according to EN 16421:2015 method 2 "Influence of materials on water intended for human consumption – reproduction of microorganisms" and recipe testing according to KTW BWGL "Assessment basis for plastics and other organic materials in contact with drinking water; issue 2021-03-09".

They also comply with the legal regulations laid down in the German Commodity Ordinance (or the respective stipulations laid down in the European Directive EC 2011/10 containing lists of substances authorised to be used in the manufacture of plastic food contact materials or articles. The materials are covered by the authorisation of monomers and additives in Directive EC 2011/10 and they comply with the specifications and purity criteria established therein. They also comply with Regulation EC 2011/10, regulation on plastic materials and articles intended to come into contact with food and the Regulation (EC) No.1935/2004, both in their relevant versions.

When used as specified, the overall migration as well as the specific migration do not exceed the legal limits. The tests were performed according to 82/711/EEC and 85/572/EEC.

The ion exchangers are not scope of EC 10/2011. The basic product used in Blanco Soft Magnesium M and Blanco Soft S,M L, is tested and certified under BS 6920 by WRAS (UK), approved by the National Sanitation Foundation (NSF) according to NSF/ANSI Standard 42 "Drinking Water System Components – Health Effects" and approved by French authorities (Direction Générale de la Santé, DGS). The resins are manufactured in accordance with a certified Quality Assurance System and in accordance with the recommendations of the resolution ResAP (2004)3 of the council of Europe on ion exchange and adsorbents resins used in the processing of foodstuff. Particularly only substances are used for manufacturing which are listed in the technical document no. 1 of the resolution. The water filter cartridges must be flushed when they are installed according to the information given in the manuals.

The activated carbon used in above mentioned product was analysed for the determinants specified in EN 12915-1 and complies with this European Standard.

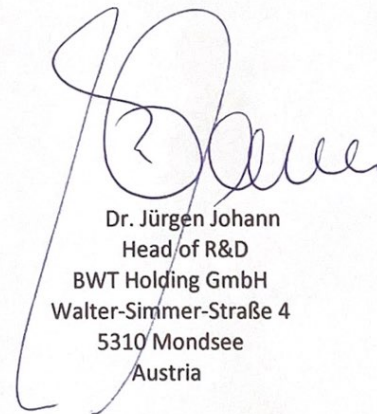

**Specification of the intended use or limitations:**

- Type(s) of food intended to come into contact with the material of the filter cartridges:  
Cold Water in drinking water quality.
- Type(s) of food NOT intended to come into contact with the material of the filter cartridges:  
the filter cartridges are only designated for the application with drinking water and must be used acc. to the information given in the manuals.

The traceability of the products are in accordance with the European Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC and it is ensured by the batch number printed on the filter cartridge. All the filter cartridges are manufactured with a certified Quality Assurance System in accordance with European Regulation (EC) No 2023/2006.

No recycled plastic material is used. European Regulation (EC) No 282/2008 on recycled plastic materials and articles intended to come into contact with foods is not applicable.
