

## Quality Manager

### Competitive Salary and Benefits

BLANCO has over 95 years' experience in producing industry leading kitchen products. We are proud of our continued success and invite you to be part of it. This exciting position, suitable for a proactive individual with 5 years' minimum experience in a quality, process and/or change management background. The successful candidate is likely to come from a distribution/manufacturing background and will have full understanding of all the processes involved in distribution and manufacturing. Duties will include :

- Responsible for quality management including process management, implementation of the BLANCO quality management system, compliance and inspection of incoming goods
- Creation and implementation of a best practice BLANCO UK compliance system, internal audit process and process management in line with BLANCO Head Office
- Work proactively with all Directors, Managers and Head Office staff to maintain a programme of continual improvement within their areas of responsibility;
- Lead the teams to achieve quality targets for customers and business goals
- Working together with quality and process/compliance management in Germany to implement and achieve a BLANCO group standard
- Review, design and implementation of controls
- Administration and improvement of Internal audit processes
- Administration and improvement of GDPR processes
- Coordinating business process improvement strategies with internal stakeholders
